June 18<sup>th</sup>, 2019

Letter of Reference: Christopher Lyons

To Whom It May Concern:

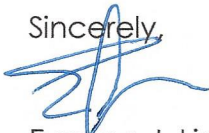

My name is Eugene Lindenmayer, I have worked for the US Postal Service for 31 years, current position as System Analyst for Retail Systems. I have worked with Chris nearly twenty years, six of which as his immediate supervisor. During this time, I have witnessed Chris soaking up new technologies like a sponge. His ability to learn and integrate new techniques into existing applications is unparalleled.

Chris was my lead developer on my tiger team, this team was our elite developers assigned to the most difficult projects and tasks that the Postal Service had to offer. On one occasion we had been asked to prototype federated logins into US Postal systems, within days Chris coded up several different solutions using OAuth and SAML implementations.

Chris worked on our sensitive systems including our PCI enclave which enables the US Postal Service the collect credit/debit transaction online. Chris has a number of strengths to offer an employer and is always mentoring or helping others.

In conclusion, I would highly recommend Chris Lyons, he would be an asset to any company he chooses to work for.

Sincerely,

Eugene J. Lindenmayer
